NEOVI®

If you decide or must settle for an urban lifestyle with increased environmental pollution, you will gradually experience the negative influences and health complaints "up close": premature skin aging, profound skin disorders, color irregularities or redness, as well as hair loss. Therefore, you should deal early with detox and set the sails differently to protect your skin.

The NEOVI team has been working on the topics of *Detox* and *Antipollution* for a long time to develop revolutionary formulas for the future of health and aesthetics.

We are pleased that we are working in this path in a creative way to find a solution to prevent the invisible, adverse and late effects of pollution.

SAPHIR ENHANCER

EYE LIFT SERUM WITH HYALURON

DESCRIPTION:

The eye area is particularly sensitive and very thin. It is often dry and loses its elasticity with increasing age, dryness lines appear. SAPHIR ENHANCER EYE LIFT SERUM provides the eye area with precious active ingredients that prevent wrinkles, dark circles and swelling, it softens and increases elasticity.

PRODUCT BENEFITS:

- anti-aging and protection from premature skin ageing
- revitalizes, astringencies, and lightens the skin with unique mineralized deep sea water
- an absolute "thirst quencher" for dehydrated skin with a pleasant cooling effect
- reduces dark circles and puffiness.
- stimulates the detoxification system
- reduces pigment accumulations
- supports the lifting of the upper eyelid
- stores the moisture over a longer period
- penetrates water deeper into the skin through the carrier system
- supports the cell activity

Three Generations

INGREDIENT CONCEPT:

- **EARTH MARINE WATER** the unique **mineralized deep sea water** that instantly revitalizes, astringencies, strengthens and lightens the skin. An absolute "thirst quencher" for dehydrated skin with a pleasant cooling effect.
- The active ingredient with **SILK ACACIA** and **DARUTOSIDE** from **SIEGESBECKIA ORIENTALIS** helps to reduce dark circles and puffiness. The properties of the dermis are strengthened, protected and improved, the detoxification system is stimulated and thus the permeability of capillaries and pigment accumulations can be reduced. In addition, the lifting of the upper eyelid is supported and the intensity of wrinkles around the eyes is visibly reduced.
- **CROSS-LINKED HYALURONIC ACID** as a network system, in which the split-off **hyaluronic acid** is released into the skin with a time delay; a depot function, i. E. the skin is specially long-lasting moisturized. The skin is nourished and the skin relief looks finer as well.
- **LOW-MOLECULAR HYALURONIC ACID** not only moisturizes the skin, but also stores the moisture over a longer period.
- **LIPOSOME-ENCAPSULATED HYALURONIC ACID** supports the process. It is characterized by an extraordinary water-binding capacity and penetrates deeper into the skin through the carrier system. The skin is thus visibly nourished, the skin relief looks finer and overall fresher.
- excellent ingredient from the **PEONY ROOT** for optimizing cell activity by renewing the mitochondria. Damaged mitochondria are dissected and removed, a part of them is reused as in a cell recycling process. Ultimately, the cells have the energy they need to keep the skin young longer.
- the blue **SAPPHIRE PEARLS** with **polysaccharide matrix** add extra exclusivity and skin protection.
